THE

RULES

FOR YOUNG
AUSTRALIANS

Australian Unions
Join. For a better life.

We need to change the rules for young Australians.

There's not many jobs available for young people. Youth unemployment is through the roof.

And if you do find a job you could be ripped off by your boss, as many young workers have been.

For many big businesses wage theft is becoming a business model.

We've also seen people's pay cut with the slashing of penalty rates in retail, pharmacy, hospitality and fast food. Now, the Government is replacing proper jobs with \$4 an hour positions.

As the cost of everything is getting more expensive, people's wages aren't keeping up.

The rules at work are broken for young people.

Only by being a member of your union can we change the rules, so all young people have better pay and their rights at work protected.
